Welcome to our Internship Fair

An internship is a great way to gain a valuable insight into a career that interests you and develop the skills employers are looking for in new recruits. Many employers offer graduate positions to interns that have already worked for them, so it could lead to a job offer too!

The employers visiting us today offer a range of internship opportunities including summer placements, discovery weeks, insight days and residential courses. The career areas represented include sales, marketing and brand management, finance, computing and IT, accounting and education.

Don’t forget to visit the Nottingham Internship Scheme stand to find out about opportunities exclusively for you.

Visit our stand to find out how to make the most of your time at university and grab some information on upcoming events. Our team are here to help you understand and make the most of the graduate jobs market, not just today, but throughout your time at university and once you graduate.

And finally, keep in touch. You can book an appointment to see us at nottingham.ac.uk/careers/appointments.

We hope you enjoy the day!

There aren't many internships that will give you responsibility like this. Over the course of 10 weeks, you'll get stuck into real projects, with real business outcomes, pursue big, disruptive ideas, and then make them happen. The work you do here is going to matter, so much so that we'll give you a competitive salary. Not to mention a taste of the training and development to come.

In many ways, you won't be an intern at all. You'll be one of the team, delivering results like everyone else. You could find yourself digging deep into our data or on the frontline ensuring customer satisfaction.

One of the best ways to get a feel for our business is to join us for a placement or internship. With us, that doesn’t just mean shadowing or doing a few admin tasks. We’ll trust you to lead your own projects and give you real responsibility for their delivery. Whether that means you join the marketing team for one of our billion-dollar brands or you help develop a new range of SNICKERS, the possibilities here really are limitless.

You’ll be able to make your time with us mean much, much more and, if everything goes well, there’s every chance it could take you on to a permanent role at Mars after you have completed your studies.
