The School of Education

e-Pioneers Programme

Building on experience in developing the use of **e-learning** approaches in several courses and areas of activity in the School, the School of Education is launching a group of **e-Pioneers** to take forward the next phase of development.

Each **e-Pioneer,** supported by an experienced mentor, will develop an appropriate aspect of **e-learning** in his/her area of activity.

The **e-Pioneers** Programme aims to move forward the adoption of **e-learning** approaches in the School, whilst at the same time providing a researchable opportunity in order to capture, learn from and disseminate aspects of the process.

Innovation, consolidation and dissemination in e-learning
