## As a new student on a postgraduate course starting in September 2016, we guarantee you a room in University-arranged accommodation for one year.\*

### Make yourself at home

At Nottingham, we want your time with us to be enjoyable and stress-free. We can advise you on accommodation and help you find a place to suit you.

### Our accommodation

University-arranged accommodation is either owned by the University or offered by one of the providers we work closely with. Accommodation is situated on or near campus and within easy travelling distance of the city. All our accommodation is safe and comfortable and has dedicated on-site management and support teams to help you.

Postgraduate accommodation is self-catered, with a choice of room types to suit your taste and budget, from shared flats to large en-suite studios. All our accommodation comes complete with kitchen/diner facilities and Wi-Fi.

### Students with disabilities

If you need accessible accommodation, you will be entitled to a suitable room in University accommodation for as long as you study with us. We have accessible rooms on each campus and on Broadgate Park, which can also be adapted to meet a student's individual requirements.

### Students with specific requirements including mixed-sex occupancy

If you have any specific requirements (for example, medical), we will take these into consideration according to priority and availability. We will also need to see written supporting evidence. All our sites are mixed-sex occupancy but we'll do our best to provide accommodation in a single-sex area if requested.

We allocate accommodation on a first-come, first-served basis so we would advise you to apply early to maximise the chances of getting the particular accommodation you want.

### Couples and families

If you want to live with your partner or family, the University may be able to help you. Find out more at [www.nottingham.ac.uk/go/familyaccommodation](http://www.nottingham.ac.uk/go/familyaccommodation)

### Private providers

If you prefer to find your own place to live, you might choose to move into a house owned by a private landlord, or a room on a privately owned site.

More information about accommodation options and details on how to apply can be found at [www.nottingham.ac.uk/accommodation](http://www.nottingham.ac.uk/accommodation)

### International applicants

If you are an international applicant who will apply for a Tier 4 student visa, please note that the visa process requires you to show that you have sufficient funds to cover your living expenses (including accommodation) in the UK. The University does not include information on accommodation fees owed or paid in the CAS which is prepared for your visa application. These fields automatically show £0.00.

The International Office recommends that you keep the money for your living expenses in your bank account until after your visa application has been processed and only pay for your accommodation once your visa has been granted. Damage deposits required to secure the accommodation must still be paid, but will not be included in the CAS. Further information on the visa application process and the funds required to make a successful visa application can be found on the International Office's website: [www.nottingham.ac.uk/internationalstudents/visasimmigration](http://www.nottingham.ac.uk/internationalstudents/visasimmigration)
