

Funding for A108 and A18L Medicine students 2023 entry

If you require this document in an alternative format, please contact Funding & Financial Support:

+44 (0)115 82 32071

Student Enquiry Centre: <https://student-enquiries.nottingham.ac.uk>

Please note, the information on this sheet is only relevant to students with "home status", who usually live in England and **who will commence the 6 year A108 or A18L Medicine with a Foundation Year course in September 2023**. Other UK and international students should check with the Student Loans Company (SLC) and the NHS Business Services Authority (NHSBSA) for details of eligibility – see Useful Contacts.

Funding in Years 0-3 (The Foundation Year is referred to as Year 0)

For the first four years of your course you can apply for funding from the Student Loans Company via the regional assessment centre. For England this is Student Finance England (SFE).

Tuition fees

If eligible, you will be able to apply for a tuition fee loan to cover the tuition fees charged by the University which in 2023/24 will be £9,250. This loan is paid direct to the University to your tuition fee account.

Living costs

You may also be eligible to take out a living cost loan of up to £9,978. £4,651 of the loan is non means tested; the remainder is means tested on household income. You receive a lower rate if you live at home with your parents during term time. You can apply online for both loans through SFE at:

gov.uk/student-finance

Additional Allowances from SFE

- **Childcare Grant** – This means-tested allowance is available to students with dependent children aged 15 or under (or 17 and under for children with special educational needs) on the first day of the academic year. This allowance pays up to 85% of actual childcare costs up to a maximum of £188.90 per week for one child and £323.85 per week for two or more children.
- **Parents Learning Allowance** – This means tested allowance of up to £1,915 is to help with course-related costs such as books, photocopying and materials.
- **Adult Dependant Grant** – this means tested allowance of up to £3,354 where the student has an adult dependant, usually their partner.
- **Disabled Students' Allowance (DSA)** – Home students who have a disability may be eligible to receive funding to help with extra costs incurred while attending their course which are a result of their disability. Advice is available from the University's Disability Support team - see Useful Contacts/University Contacts.

Funding in Years 4 and 5

2023/24 figures have been used as a guide.

Tuition fees

The NHS will pay your tuition fees if you fulfil the criteria for a 'home' student, and usually live in England, in both Years 4 and 5 of your course (5th and 6th years of study).

Living costs

(figures given are for 2022/23 and may change when you progress to year 4 in 2027)

NHS Grant and Income Assessed Bursary

In years 4 and 5 you can apply to the NHS for a non means tested grant and an income assessed bursary, see nhsbsa.nhs.uk/student-services. In 2023/24 the non means tested grant is £1,000 and the bursary is a maximum of £4,491 (covering 52 weeks) depending on your household income, and assuming you live in rented or your own accommodation. If you live with your parents all year round then you will receive the 'at home' bursary rate which in 2023/24 is a maximum of £3,439.

Most students will still be classed as being dependent on their parents in the latter years of the course, so the NHS Bursary will be assessed on their household income. If you are married, living with a civil partner and/or have dependent children then the income used for assessment purposes will be yours and/or your partner's.

Additional Allowances from the NHS

- **Dependants Allowance** – Students with dependants (both children and adult) may be eligible for a means tested allowance of £2,448 for their first dependant and an additional £549 for any other children.
- **Childcare Allowance** – This means-tested allowance is available to students with dependent children aged 15 or under (or 17 and under for children with special educational needs) on the first day of the academic year. This allowance may pay up to 85% of actual childcare costs with a maximum of £188.90 per week for one child and £323.85 per week for two or more children.
- **Parents Learning Allowance** – This means tested allowance of up to £1,204 is to help with course-related costs such as books, photocopying and materials.
- **Disabled Students' Allowance (DSA)** – Home students who have a disability may be eligible to receive funding to help with extra costs incurred while attending their course which are a result of their disability. Advice is available from the University's Disability Support team - see Useful Contacts/University Contacts.

Student Loan

(figures are for 2023/24 and may change when you progress to year 4 in 2027)

You may be eligible for a reduced rate student loan from the Student Loans Company (SLC). Apply online via Student Finance gov.uk/studentfinance but ensure you tick the relevant box to confirm that you are eligible to apply for a means tested (income assessed) NHS bursary.

The amount of loan you receive will depend on where you live in term time. If you live at home with parents then you can expect a loan of £1,955 in Year 4 and £1,483 in Year 5. If you live in rented or your own accommodation then the loan offered is £2,605 in Year 4 and £2,030 in Year 5. The length of your academic year does not affect this loan. It is a fixed amount regardless of the number of weeks you are in attendance.

Although you will commence the Medicine 4th year in June/July 2027, you will not receive any student loan until after **1st September of that year**. This is because you are not able to receive two student loans in one Student Finance financial year (which begins on 1st September); you have to wait until the next financial year begins.

NB- we are not able to confirm attendance before 1st September therefore no one can receive a loan instalment before 1st September.

Applying for your NHS bursary

The University will advise the NHS of details of all medical students who will be eligible to apply for NHS funding for the following relevant academic year.

You then (in 2027) need to apply for the Bursary via the NHS Bursary Online Support System, BOSS at myaccount.nhsbsa.nhs.uk/Pages/Login.aspx

Applying for your student loan

You apply online at gov.uk/studentfinance

Financial help from the University

You may be eligible to receive the University Core Bursary. We use the household income assessed by Student Finance to determine the award.

Household income	Core Bursary award
Up to £35,000	£1,000

Payment will be made in three equal instalments; the first in early November, second in January and the third in April or May.

Other University Funds

The University also offers the Nottingham Potential Bursary, for students who meet specific criteria, as well as a range of competitive scholarships. We also provide support funds you can apply to if you are struggling financially during an academic year.

For full eligibility criteria and to access application forms (when available), please refer to the Funding and Financial Support team web pages – see Useful Contacts.

Medicine Alumni Scholarship – £1,500 for each year of the course. For more information refer to <https://www.nottingham.ac.uk/mhs/study-with-us/undergraduate-courses/alumni-scholarships/medicine-alumni-scholarships.aspx>

Council tax

Full-time students are exempt from council tax. Students should inform their local council of their student status. Where this leaves one liable person in a household a 25% discount may be claimed.

Tax credits and benefits

Please contact the Student Advice Centre for more details on benefits and your entitlement - see Useful Contacts.

- **Child tax credits (CTC)/Universal Credit (UC)** - Students with children under 16 (or under 18 in certain circumstances) can continue to claim CTC or possibly certain elements of Universal Credit. We advise you to inform the Inland Revenue you will be in full-time education.
- **Lone parents, disabled students, student couples with children** – The Department for Work and Pensions will expect you to apply for all the student support you are entitled to.
