

Calling All Young Minds for Growing up & Brain Study!!

Study recruiting Children & Teens Ages 11-16 years

We are exploring how body changes during puberty affect our thinking, attention, memory and decision-making skills.

What's Involved:

-  Computer-based games
-  Growing up and daily activities survey
-  **Duration:** Around 40 minutes
-  **Location:** School of Psychology
(University Park Campus)

You will receive an inconvenience allowance for your time. 🎁
