

GSS9000

The most sophisticated GNSS simulator,  
for the most demanding applications

A fantastic opportunity to see a demonstration of the latest  
GNSS simulator technology from Spirent, including the  
opportunity for some hands-on experience.

**Spaces are limited, register now to secure a place!**

# GNSS Simulator Workshop

Sponsored by Spirent Communications plc

15 June 2015 | 12 pm – 4 pm | University of Nottingham

## Benefits

- An opportunity to find out about Spirent's most sophisticated GNSS simulator, the GSS9000 (Galileo, GPS3, QZSS, BeiDou, GLONASS) which gives access to more constellations and more channels than ever. In summary, it offers:
  - **Supreme performance** - improving on the existing world-leading solution from Spirent
  - **Ultimate flexibility** - to adapt precisely to meet all testing needs
  - The most **comprehensive capabilities** - available in any GNSS test solution
- A hands-on opportunity to test the equipment with assistance from Spirent and Nottingham Geospatial Institute staff.
- Free event with refreshments!

## Location

A floor Foyer  
Business School South,  
Jubilee Campus,  
University of Nottingham
