

Foundation: introduction to childhood development

Transcript of Hannah, age 9½ years

Hannah:

Who won the battle? Does he know? Does anyone else know? I think there is 6 vs 2, no not 6, 4 vs 2 battle. They would've won because the wolves and goblins and then the wolves were going against the goblins as well, weren't they? and then the eagles were on their side...the men, the elves and the dwarves...so 4 vs 2. Then the wolves came over to their side, sort of, so its 5 vs 1 basically. So I think they've won...probably
