

## **Fire Awareness;**

**Transcript – We hope you feel empowered.**

**Jo**

I feel a lot safer now, I know what to do if the alarm sounds, and who to contact if I spot any fire hazards at Uni or at home.

I feel really empowered.

Remember spending a few minutes finding out the correct fire procedures in your environment makes all the difference...

Be 'proactive' don't endanger your life, or the lives of others by not being aware of the risks of fire.
