**MANUFACTURING
METROLOGY TEAM**

Open Day

December 6th 2016 10 am - 5 pm

The Team has a range of state-of-the-art equipment for the measurement of surface texture and form. We are happy to discuss potential measurement issues and collaborative research.

The Team invites you to a lab open day to come along and see our capabilities, discuss your measurement issues/needs and please bring along your samples. Capability includes:

- Coherence scanning interferometry
- Focus variation microscopy
- Atomic force microscopy
- Structured light projection
- Photogrammetry
- X-Ray computed tomography
- Point auto-focus instrument

Please visit:

www.nottingham.ac.uk/research/manufacturing-metrology

for more information and/or register for a free measurement of your sample
