

‘Collaborative Horizons: Shared Discoveries in Regenerative Medicine’

Keynote Speakers

Morgan Alexander
University of Nottingham

Jan de Boer
Eindhoven University of Technology

Aránzazu del Campo
Universität des Saarlandes

Carlijn Bouten
Eindhoven University of Technology

Pasi Kallio
Tampere University

Aleksandr Ovsianikov
Technische Universität Wien

João Mano
University of Aveiro

Lino Ferreira
University of Coimbra

Ge Guo
University of Exeter

Liesbet Geris
KU Leuven and University of Liège

Date & Location

16th, 17th and 18th October 2024

Minderbroedersberg 4 - 6
Maastricht
The Netherlands

This year, the MERLN Institute for Technology-Inspired Regenerative Medicine will celebrate its 10th anniversary. For this special occasion we are organizing an international conference to celebrate our science together with key opinion leaders in the field of regenerative medicine. The programme is filled with insightful and inspiring talks by both senior and junior scientists. We will take you on a scientific journey discussing bioengineering approaches, challenges in regenerative medicine, biomedical applications and clinical translation. You will have the chance to network with experts from the field, share your research, participate in a panel discussion, and join hands-on workshops and poster sessions. We hope to see you there!

Deadlines

Registration Opens	March 30th
Abstract Submission Opens	April 30th
Abstract Submission Deadline	June 15th
Notification of Acceptance	September 1st

Register Now!

Early Bird fee until 30/7: **€100,-**
Late Owl fee: **€150,-**

(price includes a 3-day programme with lunch, workshops, and gala dinner)
