# We are holding 2 more Forum Meetings, November 2013 and May 2014

Trent Dementia  
Research Network

**We want to continue working and researching with you to help services supporting people at home with dementia to improve**

**We will continue to work with the service template and fidelity index, which services can use to help improve**

**We think it is useful to focus through a Forum for services, sharing experience**

**We think you like us organising the Forum, but do you want to do it instead?**

**With the next 2 Forums we will want to do some research, gathering your feedback**

## Future possibilities:

**Trent Dementia Services Development Centre is due to join the Institute of Mental Health. It focuses on assistive technology and technological approaches which can help support people at home.**

**The University has developed a partnership with Webroster, looking at better ways of rostering staff and this could link to building in software to address service quality issues.**

**Are these of interest for a future Forum?**

# Future possibilities:

**Discussion with CQC**

**Discussion with Social Services Commissioners**

**Discussion with Carer Representatives**

**Discussion with Social Workers**

**Discussion with District Nurses**

**More liaison with Health Services**

**Continuing focus on training resources**

# Future:

## Forum Wednesday, 13<sup>th</sup> November 2013

## Forum Wednesday, 7<sup>th</sup> May 2014

## How do you want it?

# GROUP WORK – SYNDICATE EXERCISE

**With home care services supporting people with dementia:**

- 1. How could the NHS and Home Care providers improve their working relationship?**
- 2. What is the NHS overlooking that home care organisations could more contribute?**
- 3. What do you want the next two forums to cover and who should be there?**
