TOP SECRET AND PERSONAL

Dear Edmund,

You spoke to me on July 5 about current projects for using the reserve. I now enclose for your information a table showing the projects approved and the sums of money involved. I think we probably owe you an apology for not having consulted you sooner on the points covered by the first four notes.

I am asking Wade-Gery to bring this letter over to you, so that you can discuss any background details with him, e.g. the exact nature of the operations mentioned. If there are any further details which you would like to have in writing, please do not hesitate to let me or him know.

Yours Ever

Pat Dean.
